EDUCATION

Institute of Aeronautical Engineering, Hyderabad, India B.Tech in Electronics and Communication Engineering	Expected May 2027 GPA: 8.84/10
SR Junior College, Malampet, Hyderabad Intermediate	May 2023 GPA: 9.2/10
Jeevadan High School, Kamareddy SSC	Mar 2021 GPA: 10/10

TECHNICAL SKILLS

HDL Languages: Verilog HDL(Basics), VHDL
Programming Languages: Java, C
Frontend: HTML, CSS, JavaScript (basics)
Tools: GitHub, VS Code, Excel
Services: ServiceNow Platform, Microsoft Azure

INTERNSHIPS

IDEABYTES	May 2026 – Jun 2026
- Developed a computer-vision-based energy optimization system using YOLO and OpenCV. - Integrated cloud services for data processing, storage, and monitoring.	
FRONT END WEB DEVELOPMENT [IBM]	Aug–Oct 2025
- Collaborated on responsive web applications using HTML, CSS, and JavaScript. - Applied front-end practices to improve accessibility, performance, and user experience.	

PROJECTS

AI-driven smart energy optimization system	May-Jun 2026
- Built an energy optimization system using YOLO and OpenCV for object detection. - Integrated cloud services for data processing and monitoring.	
Traffic Route Prediction system using ML	Mar-Jun 2026
- Predicted traffic congestion using SVM, Decision Tree and Random Forest algorithms. - Analyzed traffic data to support better route selection and congestion management.	
Cinemaze (GitHub)	Aug-Sep 2025
- Add movie reviews with details (title, rating, description). - Mark “Favorites” for quick access.	
Earthquake Detector using Arduino Uno (GitHub)	Mar-May 2025
- Built a real-time earthquake detector using an Arduino and an accelerometer. - Added buzzer and LED alerts for early warning of tremors.	

CERTIFICATES

Ideabytes - IDEABYTES	Jun-Jul 2026
Microsoft Azure - MICROSOFT	Jan 2026
Welcome to ServiceNow – Micro-Certification – SERVICENOW	Sep 2025
Front End Web Development – IBM(AICTE)	Aug-Sep 2025
TCS iON Career Edge-Young Professional - TCS iON	Mar-Apr 2025
